SCAN SHADOW AUDIT PROGRAM

The SCAN organization's goal is to have the best security audit program. It's important for SCAN Members to ensure that auditors conducting the audits on SCAN's behalf are well trained and follow SCAN's guidelines. Feedback from the completed Shadow Audits will be used to provide additional training and resources as appropriate. Additionally, it provides the SCAN membership an opportunity to actively engage in the audit execution process as an observer of the Audit Service Provider (ASP).

You can read all the details on the SCAN Members Only page [here](#).

CHINESE NEW YEAR

- Celebrations of Chinese New Year traditionally last for 16 days, starting from Chinese New Year's Eve to the Lantern Festival
- It is also known as the Lunar New Year, or Spring Festival, and is celebrated by many countries
- Red is the main color for the festival, as red is believed to be an auspicious color for the Lunar New Year, denoting prosperity and energy
- Billions of fireworks go up in China at 12 am and in the first minutes of Chinese New Year, the most anywhere at any time of year
